### Useful tips to remember

#### **INCLUSION CRITERIA**

- Both COVID-19 and non-COVID-19 may be enrolled
- COVID-19 Patients without secondary VAP/HAP/BSI are enrolled ONLY if they have MALS
- COVID-19 Patients with secondary VAP/HAP/BSI

### Useful tips to remember

- 10-day dexamethasone course does NOT exclude the patient
- Treatments with Tocilizumab, Anakinra and Baricitinib do NOT exclude the patient

BSI: bloodstream infection  
CAP: community-acquired pneumonia  
HAP: hospital-acquired pneumonia  
MALS: macrophage activation-like

Please continue to update the eCRF daily and especially the field of SOFA as it is a part of primary endpoint!

### ***A warm thank you***

To all Investigators and study team members for your contribution so far!  
We appreciate your continued commitment to this study!

We congratulate the Intensive Care Unit of Radboud for enrolling their second patient
